COURSEWORK

UNDERGRADUATE

Mentored Students for Development
Smart India Hackathon Participant
Conducted Motivational Sessions
Developed Product Scraper with BS4

SKILLS

PROGRAMMING

Over 100000+ lines:

• Javascript • Python • HTML • CSS

Frameworks and Technologies:

• React • Next Js • Node Js • Prisma
• Django • Tailwind • Bootstrap
• Strapi • Redux Toolkit • Shadcn ui
• MySQL • VCS

Familiar:

• AWS • Nginx • Flutter • React Native
• Laravel • Docker

ACHIEVEMENTS

HONOURS AND AWARDS

Received 68,300 Rs Medhavi Scholarship
by MP Government of India

Microsoft Learn Ambassador Program

Awarded medal in Kirar Samellon

EXPERIENCE

RECURSIVE SOFT PRO | REACT DEVELOPER

July 2022 – April 2023 | Mumbai, India

- Developed and maintained **microservices** for Dr. Reddy's Laboratories using **Node.js**, **MongoDB**, **Azure**, and **GraphQL**, ensuring scalability and reliability.
- Created a Progressive Web App (PWA) vitals application with **React.js** and **GraphQL** for various mobile applications, enhancing user accessibility.
- Improved code structure and design by implementing **React Redux Toolkit** and **Material UI**, enhancing the user experience and functionality of applications.

MATHRITHMS, RISHIKESH | FRONTEND DEVELOPER

July 2021 – Apr 2022 | Rishikesh, INDIA

- Subira Web App: Built a document signing app using **React**, **NodeJS**, **Django**, **AWS Cognito**, and **Redux**, while handling client-reported design/UI issues and deployment file transfers.
- Tradeonport: Developed a multi-vendor transport app with **Django**, **AWS**, **React**, **Redux**, and **REST API**, including a **user-specific chat** feature.
- Encome Fintech: Redesigned and **integrated** APIs into **Pegasus Django** React template, leveraging **Bulma CSS** for **improved UI**.
- Collaborated with **cross-functional teams** to optimize code quality, performance, and maintainability through code reviews and best practices.

CELETEL | BACKEND DEVELOPER

Jan 2022 – March 2022 | Delhi, India

- Established a **multi-user SMS service** platform: Utilized **Django REST API** and **RabbitMQ** for user service and **wallet** management.
- Developed a contact management service with **FastAPI** and **MongoDB**.
- Implemented **job scheduling** for message delivery using **Celery**, **Redis**, and **Docker** containerization.

PROJECTS

PEAKSENDER

- Crafted a dynamic **Next.js** app with **Node.js**, **Express**, **Prisma** and **Redux Toolkit** for a smooth user experience.
- Integrated **Paytm**, **QR codes**, **S3 storage**, and **AWS** services, optimizing app functionality and scalability.
- Implemented robust user authentication using **JWT** and **NextAuth**, ensuring a secure user experience.
- Designed an **admin dashboard** with analytics, deployed on **AWS** using **EC2**, **Nginx** for routing and added **cron jobs** for automation.

PAGALBHOOT WEBAPP

- Single-page **Next.js** app, SEO-friendly, and server-side rendering.
- Deployed on **Vercel** via **GitHub**.
- Cart management with **Redux Toolkit** and **Firebase**.
- **Google** and **email/password** authentication for users, carts, and orders.
